

REMARKS

Entry of the foregoing election-of-species and an early examination on the merits of the above-identified patent application are respectfully in view of the foregoing election and the following remarks.

The first Office Action pertaining to the above-identified patent application consisted solely of an election-of-species requirement, pursuant to 35 U.S.C. §121. Specifically, the Examiner has required an election between the species of invention illustrated in FIG. 12, directed toward use of the present invention with a writing tablet, and the embodiment of FIG. 13, showing a possible connection of a video/audio arrangement for use with the present invention.

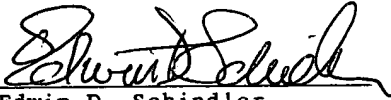

Applicants have elected the embodiment as shown in FIG. 12 for prosecution on the merits, if no generic claim is ultimately held to be allowable. The Examiner has indicated that Claim 1 is generic. Applicants also consider Claims 2-14 and 21-24 to be generic of the species shown in both FIGS. 12 and 13. Applicants submit that Claims 15 and 20 are readable on solely the embodiment of the elected species of FIG. 12.

Entry of the foregoing election-of-species, an early

examination on the merits and the allowance of all claims are respectfully requested and earnestly solicited.

Respectfully submitted,

DAVID J. FISHER ET AL.
